

## Summer Romance: Beach Vacation

This is a coming of age story. It follows the lives of two young people that grow up together as best friends. They kiss for the first time on the night before their first day of high school and walk to high school the next morning holding hands. Amber is pulled away from Mark and directed into the elite social circle at their high school while Mark is confined to geek row. Amber makes the cheer squad and Mark makes the band. They both want to date, but the cruelty of their high school caste system keeps them apart. They eventually find their way back to each other as their Senior Year begins and they decide to take their relationship to the next level on their summer beach vacation. They both had patiently waited for each other over the last several years. The only problem is when they finally come together they get caught. It is a tender and sweet story that is hopefully a little bit funny. This is a complete standalone story there are no cliff hangers.
