

Counting Stars: Donnelley Brothers (Book 1) (Donnelley Brothers)

Counting Stars is an emotionally charged romance about love and loss and learning to live after everything you've lived for has died. I was with him for six years. Derek was my life, my future, and my dream come true. We had it all—the house, the cars, rings on our fingers, and we were even discussing a baby. Derek was my high school sweetheart, my lover, and my best friend. Derek is dead. At only twenty-two years old I am a widow. I've spent the last year of my life filtering through self-help books searching for a way to heal the remnants of my heart. I am broken. It is my incessant searching that leads me to booking a month-long trip with The Donnelleys Wild Land Tours. I was supposed to tour with Gracie but she is incapacitated and she's left me in Logan's care. If I could, I would turn and walk away from this tour. But I can't. This is my last chance at learning to live again. Logan doesn't know I'm broken. When he looks at me, I feel strong again. I feel alive. He pushes me to learn new things, to experience new ways, and to fight. Logan, in all his bluntness has taught me to fight for what I want and what I believe in. I don't know how it happened, but Logan picked up the pieces of my heart and helped me to rebuild it. In him, I've found acceptance in the hardest thing I had to face. We all have a path, and for me, my path has been beautifully painful. I was fated; both blessed and cursed, to love two men with the entirety of my heart. Looking back, I wouldn't change a day, because the pain of the lost life I had with Derek led me to the beautiful present I cherish with Logan. ***This novel does NOT end in a cliffhanger. It is a heartwarming romance for everyone who loves a happy ending. This is the first of four novels—each novel will feature a different Donnelley Brother. This can be read as a stand-alone!***
