A short guide to **Small Business Tax**

Michael Darvell

If you are starting a business, or already running a business, you have a lot to think about. Often tax isn't at the top of the agenda, but you know that if you get it wrong you can be charged penalties, and you could have that niggling suspicion that you may be paying more tax than you need to. If you wanted to learn more about the taxes your business faces you could spend your time working your way through many long and highly detailed books, and then having learnt all the details consider what you can do to reduce your tax bill. Alternatively, you could buy this book, which provides both a simple explanation of how the various taxes will impact on your business in an easy to understand style and provides you with ideas of potential ways to minimise your tax bill. What's more, it provides all this in a short guide so you can quickly gain this knowledge and put it into practice. If you are setting up a new business it works through the options you face and will help you decide on what the best way will be for you to set up your business. For those already running a business, you can check that you're not going to fall foul of any nasty traps which you may not have come across yet, and all businesses could take advantage of the suggestions for minimising your tax bill. The book covers all the major UK taxes which could impact on a small business, include Income Tax, National Insurance, Corporation Tax and VAT, as well as looking at matters such as Pay As You Earn (PAYE) and the Construction Industry Scheme (CIS). Reading this book will not make you an expert on all aspects of Small Business Tax. However, it will highlight to you the key tax issues, aspects where you could save tax, and places where there could be a potential trap to avoid. If you want clever artificial schemes to avoid paying any tax this isn't the book for you, but if you want some straightforward pointers about how

you can reduce your tax bill, and how you can avoid some of the traps which would result in you paying more tax, you should find plenty to consider here.
