Rory Donovans life is a hot mess. His marriage is failing and hes in intensive psychotherapy, working through the unfortunate side effects of memories of a childhood trauma. The only thing good in his life right now is his job-teaching photography to gifted high school students.

When he meets Addisons teacher and realizes theyve met before, he cant get the sexy stranger out of his head. Striking up a sexual-tension-filled friendship, together they must help an angsty teenager deal with a dying friend.
