

Guarded: The Silverton Chronicles

When everyone's existence depends on the lies they tell, trust doesn't come easy. Ivy's neighbors have a secret. They aren't human. But Ivy has a secret, too. She knows. As long as everyone keeps quiet, she's happy working as a P.I. by day and chillaxing with her BFF Florian, a vampire, by night. When a routine pickup drops her in the middle of a murder, her two worlds collide. While Florian knows how to throw a punch, deep down he's a softie. His idea of scary? Running out of hair product. It's time Ivy faced facts. Even with a vampire on stand-by, one gal can only kick so many asses. For help, she must put her faith in others. A human, who might just be the one. A demon, who will, for a price, open the doors to her heritage. And a werewolf, who wants to protect her from herself. Torn between these men, Ivy must tread carefully, because one wants her heart, one wants her body, and one wants her dead. A sexy urban fantasy by the author of *Divide and Conquer*.

INTERVIEW

WITH THE AUTHOR Q - What makes *Guarded* special? A - The characters, no doubt. Primarily, *Guarded* is a women's adventure playing out in a paranormal world, where figures from lore co-inhabit our mundane world. Among the shapeshifters, demons and vampires, this young woman, Ivy, slowly comes to terms with who she is. Along the way, she must solve the mystery of a statue and avoid an old foe, but these layers really mainly serve as a vehicle for her characters' transformation. At a deeper level, it's the chemistry between the people that stays with you. Especially memorable is the special friendship between Ivy and her sidekick Florian. Q - How many books will complete *The Silverton Chronicles* series? A - *Guarded* was released in July 2015, and its sequel is due out in March 2016. The series will consist of at least five full-length books and a collection of short stories to tie up loose ends. Q - So, why

should readers give this book a try? A - Because The Silverton Chronicles offer a fun, fast-paced adventure that will keep you guessing to the very end. Not even the romance is straight-forward. Basically, readers who enjoy quick-action plot twists and scorching-hot chemistry will get a thrill out of this novel, but be warned: it contains adult material. Q - Why do you write urban fantasy? A - Because its the genre I grew up on. Many books for children feature magic and supernatural elements, and play out in our neighborhoods. My novel is a spicy, grown-up version of that. In fact, many readers whove never considered urban fantasy or paranormal romance find Guarded the perfect introduction, since its primarily about real people in the (almost) real world. Thanks for reading!
