

Tangled Mind

For years Beck Lund has taken care of his volatile boyfriend, Brady, always putting Bradys needs above his own and walking on eggshells to keep the peace. After Brady overdoses on heroin, his death devastates Beck. Thankfully Becks best friend, Timothy Kallis, finds him the help he needs. Beck slowly starts to recover and moves in with Timothy to get back on his feet, but hes oblivious that Timothy is secretly nursing romantic affection for him.

Beck focuses on his own healing for the first time in his life. After months of challenging his codependent tendencies and learning how to stand up for himself, Beck finally starts to trust his gut and hopes to one day love again. Timothy is patient throughout, taking care of Beck in ways no one ever has. But if Beck cant recognize Timothys affection for him, it might be too late for them to move beyond friendship.
