

Helicopter Maneuvers Manual: A step-by-step illustrated guide to performing all helicopter flight operations

Providing a detailed look at helicopter maneuvers, the information in this guide helps to solidify concepts gained from flight training in a student pilots mind by incorporating the Practical Test Standards into every maneuver description. The graphical and textual explanations work in conjunction with an instructors lessons, allowing students to prepare before sessions and to review afterwards as well. There are many guides to flight maneuvers and how to fly them in airplanes but none specifically made for helicopters, and not in the complete and fully color-illustrated way as presented in Helicopter Maneuvers Manual. This handbook will be of immense help to flight instructors teaching helicopter maneuvers, following the FAAs practical test standards for certification of helicopter pilots. This book not only helps in training but can also be used for reference throughout the helicopter pilots flight career. It provides readers with a crystal-clear picture of what level of performance is expected of them every step and includes insights into the common errors associated with each move.
