

Hit by an Iceberg: Coping with Disability Mid-Career

More people suffer a disability before age 65 than die before age 65. This book shows how to manage a mid-career disabling experience - whether its your own or that of a relative, friend, client or colleague - from a personal financial and legal standpoint. The book guides you through government and private insurance and rehabilitation programmes, housing and living assistance, and legal and money management considerations for the disabled working person.
