

When Baes a Boss

When Baes a BOSS, one must walk, talk, and most importantly act like a boss. Mayhem was the man with the plan, ruling the streets with an iron fist as founder of The Godfrey Brothers, a drug cartel that he started with the help of his brothers Maleek and Ramsey. Mayhem didnt expect complications to rise, but when they did, he was prepared to take the fall knowing that his brothers were capable of holding it down until he was free again. Upon his release, Mayhem returned home to his wife who he no longer loved. Macy didnt hold him down like she promised to do before Mayhem turned himself in. Mayhem doesnt want anything else to do with her, but is too busy to sign the divorce papers. One night while in the trenches, he runs into a troubled yet alluring young woman who ran the streets and climbed the pole of many men by the name of Tiny. Opposites definitely attract in this new series by author Lucinda John. Mayhem finds himself in love with the young gal, but she needs some molding. Tiny is the product of a broken home and in desperate need of home training. Mayhems wife realizes that she is losing her husband and becomes desperate to keep her ring and her perfect life. She begins to dig up every skeleton in Tinys life in hopes to lead him away from her captivity.
