

If getting the most out of life is important to you, you must read Life-changing Conversations! - Eldon Taylor PhD, FAPA, radio personality and New York Times bestselling author of Choices and Illusions and Mind Programming This book explains why effective talk can be truly transformative and provides a practical guide to having the kinds of conversations that will turn your life around. Expert psychologist and coach Sarah Rozenhuler provides the seven keys to success: calling up your courage, focusing on your intention, creating positive space, speaking your truth, having a flexible style, cultivating constructive controversy, and obtaining closure. Throughout the book you will find real-life examples of problem situations, including negotiating with difficult neighbours, asking for a raise and ending a long-term relationship. The author shows through extended sample dialogue how, in each case, a difficult situation was worked through and a positive result achieved. Improving our effectiveness at having good conversations is the single most important way to bring about positive change in our lives.
