

## Almost Innocent: Dancing in the Space Between

Perspective Shifter. Life Changer. A mystic, philosopher, educator, natural psychologist, musician, innocent abroad shares insights that sparkle, transform, and excite. Michael Mish mind and world view are cosmic, inclusive, pertinent, accessible, and profound. The grasp of Mish reach makes one gasp as to the obvious truth in his clearly shared insights. I am widely read in the above fields, and an experienced counselor of thousands, yet even for me, this brilliant view is so refreshing as to astonish. Michael Mish is that rare participant/observer that helps us see/feel/know what were seeing/feeling/knowing with vivid and astute magnification to make sure we are actually getting it. Deftly carrying us back to universal experiences, our birth, our innocent childhood, our loss of innocence, he helps us see where and when our lives went off the track and amazingly, has offered useful and helpful tools to get them back on track. Individually and collectively, we ignore this book at our peril. Almost Innocent, provides a traceable trail of wisdom for joy and consciousness advancement. It is one of the most significant books I've ever encountered and will widely recommend as long as I live and breathe. The originality, the vast breadth of concept and depth of awareness rival the minds of Freud, Jung, Margaret Mead, Einstein, Virginia Satir, and Carl Sagan. Mish gently carries us to a new threshold of self-understanding, and compassion for others who have also been bitten by the lizard. He helps us re-wind and review our experience with our parents. Then he fashions a new bow where our arrow of destiny, both individually and collectively, can fly to happier and survivable heights. The question is, will we?
