

A past that won't let go... After losing his job, Chase Sarim finds himself living in a shit hole apartment. His new neighbor calls himself Seven, wears aluminum hats and carries around a ceramic rooster. He also seems to know what Chase is going to do or say before it happens, and talks about people named, Nine, Three, and Four. Chase knows better than to get involved with someone like that. But some men are just too hot to resist. A future of fear... Seven has been running for his life ever since he escaped Sub-Floor. In order to elude those hunting him he can never have a home, never have friends...and love? It's nothing but a weakness that can be used against him. Hiding had become a way of life. Until Chase. Greed, power, and corruption... Dr. David Stone knows Seven has a secret. Why else would his colleague, Dr. Radcliff, help Seven escape Sub-Floor? It wasn't the loss of a defective precog that bothered Stone, it was the fact Radcliff was willing to die to keep Stone from knowing why he did it. Or better yet, how. Two men, one love, brought together by a series of impossible circumstances and destined by fate for an entangled future. But maybe fate has nothing to do with it.
