

Historian David Crane, with full access to the explorer's papers, diaries, and expedition records, gives us an illuminating portrait of Robert Falcon Scott that is more nuanced and balanced than any we have had before. In reassessing Scott's life, Crane is able to provide a fresh perspective on not only the Discovery expedition of 1901—4 and the Terra Nova expedition of 1910—13, but his remarkable scientific achievements and the challenges of his tumultuous private life. Neither foolhardy dilettante, nor the last romantic champion of his age, Scott is presented as a man of indomitable courage and questionable judgment. The result is an absolutely compelling portrait of a complicated hero.

Riders of the Spew, Bill Gates: A Biography (Greenwood Biographies), Island Heat, The Devil of Clan Sinclair, The New Order: Alien Apocalypse Part III, Alls Fair: A McKnight Romance Prequel (McKnight Romances), A Grateful Heart: Daily Blessings for the Evening Meals from Buddha to The Beatles,
