

Between the Stars and Sky

Between the Stars and Sky is a vivid, standalone contemporary novel from Young Adult author David James. In the small, lakeside town of Huntington, the Firelight Festival marks the end of summer. A time to laugh, to live, to love. And for Jackson Grant, it is a chance to begin again. But there is a darker side to the Firelight Festival, a deadly tradition known as the Firelight Fall. A secret game. A legendary lie. A test of bravery. Those who fall risk everything, and Jackson is on the edge. Until he meets a girl who pushes him over. For Jackson, falling for Sarah Blake might be as dangerous as jumping in the Firelight Fall. As summer burns away, Jackson and Sarah ignite an unstoppable love game. For her, his heart is on fire. And soon, Sarah shows him life, saves him from loss, and opens his heart to an infinite and wild love found between the stars and sky. Lyrical and deeply romantic, Between the Stars and Sky is a poetic and heart-stopping read for fans of Lauren Oliver, Gayle Forman, and E. Lockhart.
