Can he convince her to join forces with him before she shoots him with her derringer? Can they elude the villainous Professor Smith?? As he attempts to get to Area 51, he crosses paths with Miss Olivia Carstairs. With a mind as crisp and orderly as the stays of her corset, Olivia has a transmogrification machine powered by steam and lips hed like to kiss like it was his job. Can he convince her to join forces with him before she shoots him with her derringer? Can they elude the villainous Professor Smith?? This novella is 27,000 words or about 60 printed pages. This edition also includes: Two short stories from the Project Enterprise universe. *Men in Jeans*: A romantic suspense mystery Richard Daniels thinks life cant any stranger working at Area 51 until he gets assigned to find out where a Houston area SF writer gets the ideas for her books. (Originally appeared in the *Death in Texas* anthology) *Steam Time*: A romantic steampunk adventure The man formerly known as Tobias Smith hadnt planned to ride along with Dr. Everly and his Medicine Show. Could he be the good guy? Be the hero, save the day and get the girl? (Originally appeared in

Dreamspell Steampunk Vol 1) When I took my turn into science fiction romance about six years ago, I did not expect to also veer off into steampunk. Disclaimer: My steampunk is not like anyone else's steampunk (that I know), as it is liberally mixed with romance elements. And ALL of the science is made up. Like, completely and utterly made up. If you like your science fiction real, then run from this book. Save yourself (or your head from exploding). If you like your science fiction light on the hard science, if you like lots of humor in your fiction, and if you enjoy romance in your reading material, then this might be the novella for you. If you're still not sure...Do you like action? Adventure? Have you ever been to Big Bend National Park? Maybe wondered what caused the Marfa lights? Then read TANGLED IN TIME! This was supposed to be a short story for an anthology. I thought it would be fun to give Colonel Carey a story (and a girl), but then Olivia showed up in her crazy machine and I was having fun and they seemed to be having fun (well, mostly having fun) and the next thing I knew, I had a novella and not a short story. At least it didn't turn into another one of my BABs (big a** books). Speaking of BABs (we were, weren't we?), this book is part my Project Enterprise series. The series began with THE KEY, continued to GIRL GONE NOVA, then collided with TANGLED IN TIME. A friend pointed out that my story arc was not complete, forcing me to write yet another BAB called STEAMROLLED. The series should have concluded with KICKING ASHE, but I wrote a couple of actual short stories set in my twisted little universe which have been collected into PROJECT ENTERPRISE: THE SHORT STORIES. And if action, adventure, made up science and romance without the steampunk floats your reading boat, I also wrote an action-adventure, time-travel-to-World War II, romance called OUT OF TIME.
