

The Argonauts

An intrepid voyage out to the frontiers of the latest thinking about love, language, and family Maggie Nelsons *The Argonauts* is a genre-bending memoir, a work of autotheory offering fresh, fierce, and timely thinking about desire, identity, and the limitations and possibilities of love and language. At its center is a romance: the story of the authors relationship with the artist Harry Dodge. This story, which includes Nelsons account of falling in love with Dodge, who is fluidly gendered, as well as her journey to and through a pregnancy, offers a firsthand account of the complexities and joys of (queer) family-making. Writing in the spirit of public intellectuals such as Susan Sontag and Roland Barthes, Nelson binds her personal experience to a rigorous exploration of what iconic theorists have said about sexuality, gender, and the vexed institutions of marriage and child-rearing. Nelsons insistence on radical individual freedom and the value of caretaking becomes the rallying cry of this thoughtful, unabashed, uncompromising book.

In her new memoir *The Argonauts* (2015), poet, writer and art critic Maggie Nelson meditates on a set of oxymorons: the pregnant woman who thinks, the mother

Rise of the Argonauts is a 2008 action role-playing game developed by Liquid Entertainment and published by Codemasters for Microsoft Windows, PlayStation

In Greek mythology, the Golden Fleece is the fleece of the gold-haired winged ram, which was held in Colchis. The fleece is a symbol of authority and kingship.
