Leon Vega, a descendant of the Haast Eagle Shifters, is the only son and immediate heir to the throne of his father, King Harold Vega. As Prince, fulfilling his family expectations has been the basis of his life from childhood to young adulthood. Little by little, Leon has come to terms with the huge responsibility that awaits for him, but deep down he desires to be his own man and have a life outside of his family. A desire that could come true after a chance encounter with Vincent Dufoe, the third prince in line to the throne of Willem Dufoe, the Alpha of the Dire Wolf pack. Vincent is relieved that he doesn't have to go through the rigorous training of an upcoming Alpha like his older brother. He can live his life in freedom however, he has recognized that his freedom comes with the price of loneliness. But lonely days and cold nights are about to become things of the past for Prince Vincent. A rebellion streak is gradually forming within Leon and Vincent's heart is warming up to the idea of a companion. But can this eagle and wolf form a bond without falling prey to each other's circumstances or animal instincts?
